

AUSTIN WINS BY SINGLE VOTE

M. I. T., Princeton, Harvard Crews Race Sat. for Compton Cup

Princeton Favored To Repeat Victories Of Past Years

Guy Haines, Stroke, Out Sick

The annual Compton cup regatta in which Harvard, Princeton and Technology varsity crews will battle for possession of the cup annually awarded by President Compton, will take place tomorrow afternoon at three o'clock here at the Charles River Basin. Princeton, who has won the cup for the past two years, since the cup was first awarded, is again favored to win the event. This is based mainly on the fact that the Tigers have five of last year's letter men back on the boat. In addition, its average weight of 180 pounds per man will also be a big asset in the Tiger's favor. Harvard who has not yet held its first Inter-collegiate meet will probably be given a stiff battle by the Engineers for second place.

Haines Has Measles

One of the severest handicaps to the Tech varsity boat, will be the absence of Guy Haines, the stroke, who is out sick with measles. In spite of his light weight, Guy is considered one of the main sparks on the varsity boat and his absence may mean the disrupting of the speed and smoothness that the boat has shown heretofore.

Crew

Miss Compton To Be Honorary Colonel Of Scabbard and Blade

Will Review Student Corps On Wednesday; To Lead March At Ball

Miss Mary Compton, daughter of President Karl T. Compton, president of the Institute, has accepted an invitation to be honorary colonel of Scabbard and Blade, national honorary military society of M. I. T. She will participate in a regimental review of the cadet corps to be held May 1 on the coop field, it was announced last night.

The entire cadet corps of the R. O. T. C. has been turned over to the Scabbard and Blade officers by Col. Samuel C. Vestal, professor of military science and tactics, for participation in the review, which will include more than 600 freshmen and 75 student officers.

Miss Compton will be escorted to (Continued on Page 4)

Edward L. Moreland Is Honored at Dinner

Mr. Edward L. Moreland, recently appointed head of the department of electrical engineering of the Institute, and Professor Dugald C. Jackson, retiring head, who was appointed to the position in 1907, were honored at a dinner meeting of the Technology section of the A. I. E. E. last Wednesday evening in the North Hall of Walker Memorial.

Mr. Moreland, who has long been associated with Professor Jackson in (Continued on Page 3)

Moreland Speech

Varsity Crew Lineup For Compton Cup Race Changed

The Technology varsity crew lineups for tomorrow afternoon's Compton Cup Regatta will probably be the same as the lineups on the boat last night. No last minute changes are expected. The lineup last night was as follows:

Al Habeltine will be at number 1; Bill Bixby will be at 2; Jonny Ferguson at 3; Bill Stueck at 4; Bob Thorson at 5; Norman Birch at 6; Art Haskins at 7; Captain Al Mowatt at stroke, and George Hunt at Cox.

Paddle Rush Will Liven Open House

Free Techniques Will Reward Agility And Ingenuity In Contest

The annual Technique Rush will take place at Tech field on Saturday, May 4, Open House Day, at three in the afternoon. It will be the same as it has been for many years.

Few participated in the contest last year, and the management lays the fact to lack of publicity. In order to make this year's contest a success an appeal was made by John B. Chapman, '35, at the Institute Committee meeting last night. He urged all those present to use their influence either personally or officially to get men to take part in the fracas.

The purpose of the Rush is to advertise Technique, the yearbook of (Continued on Page 4)

Technique Rush

"I'm no Angel" Quotes Rogers at Debate Here

Radcliffe Upholds Affirmative Against Technology's Team

"Fools rush in where angels fear to tread", and in the words of our famous tragic actress, "I'm no angel", quoted Professor Robert E. Rogers as commentator at the "Dutch Treat" no decision debate held last Tuesday evening in Eastman Lecture Hall between Radcliffe and M. I. T.

The Radcliffe girls contended that "dutch treats" should exist while the Technology boys upheld the negative. The Radcliffe team comprising Misses Carol McCormack, '37, Shohig Terzian, '37, and Virginia Jones, '38, who unanimously condemned the "shrinking violet" and contended that the woman has grown strong as is witnessed by their work in industry. On the other hand, Philip R. Scarito, '37, Paul A. Vogel, '37, and Robert Treat, Jr., '38, gave statistics and quoted poetry and Beatrice Fairfax.

Professor Rogers questioned the given statistics by commenting, "Figures can't lie, but liars can figure," and also added that he was surprised at hearing the quoting of Tennyson's poetry by "the rough and horny-handed sons of toil" and even more surprised to hear Beatrice Fairfax mentioned in the same breath. In all Professor Rogers summed up the debate as a meeting of Man's Chivalry and Idealism pitted against Woman's Might and Business ability.

Why of Inst. Com. Member is Told By The Lounger

Says Fierce Expression, Nasal Exhalation And Pipe Clutching Needed

Frowns And Squints In Order

Inst. Comm. Mtng.

For a couple of years we have seen in our peregrinations through Walker those neat letters setting off the East (or is it the West?) Lounge by the inspiring title Institute Committee Room. Finally we decided to find out What Went On at these Important Meetings. We owed it to Our Public, we thought, to let them know what they paid \$36 a term for. Of course you don't realize that you do pay for other things besides tuition, the Coop (adv.), and a look at the Rogers-Wiener sideshow, but you do. Just another scheme for the redistribution of wealth. Except that it is redistributed hind side foremost.

Collegians Play Lowell Tomorrow

Baseball Team Will Also Meet Harvard Junior Varsity Next Monday

The Cambridge Collegians, the first baseball team in several years to be composed of M. I. T. undergraduates, will play their first game of the season tomorrow when they meet Lowell Textile at Lowell. Kenny or Abbott will probably twirl for the Collegians, with Dick Smith slated to do the receiving.

In the infield Joe Winiarski will be at first base, Charley Smith or Johnny Demo will be on second, and Constant Bouchard or Ed Lynn will be at the hot corner. If Kenney does not pitch he will surely be at shortstop. Other- (Continued on Page 4)

Music Clubs Frolic With Dance Tonight

B. U. Girls' Glee Club Joins In Springtime Concert

The Main Hall in Walker Memorial will take on a springtime appearance at the Spring Frolic on Friday, April 26, when the Combined Musical Club present their annual spring concert in conjunction with the Boston University Girls' Glee Club. The major part of the decorations will consist of a May pole arrangement.

The following selections are on the program:

Let Every Man Adore Thee, Bach; King Charles; Down Among the Dead Men, Vaughn-Williams. All will be presented by the M. I. T. Glee Club. The M. I. T. Orchestra will play Hungarian Dance No. 5, and Justin Shapiro, '36, will be featured in a violin solo, Viotti Concerto No. 23, accompanied by the Orchestra.

Immediately after the concert, the new management of the Clubs will be announced. Dancing until 2 A. M. to the music of John Scully and his orchestra will follow.

The list of chaperones for this concert are: Mrs. James Jack, Mrs. Leicester Hamilton, Miss Marie Oliver, Mrs. John Marshall.

Tickets are \$1.75 per couple and will be on sale at the door. Dress will be formal.

McLellan and Weir Head Lower Classes

Austin's One Vote Margin Rechecked Six Times; Voting Draws Heavier Returns This Year With 50% At Polls

John C. Austin captured the presidency of the Class of 1936 from Brenton W. Lowe by a scant margin of one vote, it was disclosed by Walter H. Stockmayer, '35, chairman of the Institute Committee, to The Tech last night.

David S. McLellan and Donald Weir were elected presidents of the Classes of 1937 and 1938 respectively, while Stockmayer won the uncontested election for the permanent presidency of the graduating class, as a result of Wednesday's balloting.

Figures Not Given

Actual figures on the voting were not revealed by Ford M. Boulware, '36, of the Elections Committee in his report to the Institute Committee yesterday, in accordance with precedent. The fact of the one vote margin was later attested to by Stockmayer who also declared that the votes had been recounted six times to assure correctness.

Voting in this year's election was slightly heavier than usual, with more than 50% of each class going to the polls. 129 Seniors, 272 Juniors, 260 Sophomores and 282 Freshmen cast ballots.

Granberg is Permanent Secretary

Robert J. Granberg won the post of permanent secretary of the class of 1935 with J. Barton Chapman elected alternate.

Student Engineering Conference Will Be Held at Technology

Trips, Lectures, Banquets, Are Planned For New England Gathering

American Society of Mechanical Engineers will hold their third annual New England Student Conference at Technology on April 29 and 30. Representatives from Brown, Clarkson, Cornell, Lowell Textile, Maine, M.I.T., New Hampshire, Northeastern, Rensselaer, Rhode Island, Syracuse, Tufts, Vermont, Worcester, and Yale will be present.

An extensive program has been planned. On the first day there will be plant inspection trips, a luncheon at which Drs. Compton, and Hunsaker, and Mr. Wright are to speak and a technical session in the Eastman Lecture hall where many papers will be read. In the evening a banquet will be held in the main hall of Walker at which time Dr. Bush, Mr. Moulthrop, and Professor Bliss will speak. The showing of high speed films will terminate the day's events.

A similar program will be followed on Tuesday. Professor Hall, Mr. Benoit, and Mr. Davies will speak at the luncheon. An Open Forum and a plant inspection trip will conclude the conference.

Institute Committee Makes Chairmanship Selections

At the Institute Committee meeting last night John D. Gardiner, '36, was appointed chairman of the Walker Memorial Committee subject to the approval of the present group. As Junior members Rutherford Harris, '37, and George G. Wemple, '37 were appointed.

Allan W. Horton, '36, will be chairman of the budget committee next year. William J. McCune, Jr., '37, will be Junior member.

Ford M. Boulware, '36, was appointed chairman of the elections committee.

Besides Austin, other officers of next year's senior class are as follows: vice-president: James H. Schipper, alternate: Stanley T. Johnson; secretary-treasurer: Robert E. Worden, alternate: Robert E. Williams, Jr.; Institute Committee: Michael A. Kuryla and Anton E. Hittl; alternates: William B. duPont and William M. Benson.

Officers of the junior class for next year are: president: David S. McLellan (Continued on Page 4)

Tau Beta Pi Admits Sixteen New Men on Fiftieth Anniversary

Seven Initiates From Institute; Others Are From Harvard And Tufts

Before one hundred members of the Technology, Tufts, Harvard, and Worcester Polytechnic Institute Chapters, Tau Beta Pi last night initiated sixteen new members and celebrated its fiftieth anniversary in the North Hall of Walker Memorial.

Seven of the new members were from the Institute while the others were from Tufts and Harvard. Four of Technology's pledges to Tau Beta Pi were unable to attend the initiation because of co-operative work in Schenectady. They are Martin A. Gilman, Walter K. MacAdam, William R. Say- (Continued on Page 2)

Tech Swimmers Elect New Set of Officers

James F. Patterson, '36, captain of the swimming team for the '35-'36 season, was elected president of the Tech Swim Club at a meeting last Wednesday. Others elected were: Henry E. Heywood, '37, vice-president; Bernard Vonnegut, '36, secretary, and William H. Hope, Jr., '36, treasurer.

A decision was reached about the honorary key which will be the club emblem and arrangements have been made for the manufacturing of the keys.

WORLD'S FAIREST

OPEN HOUSE DAY

WITH Open House Day in the immediate offing, it is time for every student to familiarize himself with the most interesting exhibits in order that he may be of greater service to Institute guests on that day.

The major purpose of this annual event is to offer visitors to the Institute some knowledge of what advances in science, engineering, and education are being made within our walls. Consistent with this purpose, it is the duty of each student to do all he can in making an hospitable atmosphere prevail here on that day. Open House day is mainly a student affair, managed by a committee composed of students, and its success depends largely on the effort exerted by the student body in giving its services to visitors.

Freshmen have not had the opportunity to see as much of the Institute as those of the upper classes, and they will do well to take advantage of the opportunity of getting a comprehensive idea of the institution of which they form a part.

With The American College Editor

YEARS OF DOUBT

He came to the University wide-eyed and decent. The world seemed to be his for the asking. His ideals were the highest; his ambitions devoid of any malice. He regarded the future eagerly, ready to take life in his stride. He left the University bitter and cynical.

The case of this particular freshman is, unfortunately, not at all singular. Nor should this case be restricted to University life alone. Every individual must struggle through that awful period of realization that all in God's sweet world is not "sweet". It may be said of youth that at first he believes in such vague and idealistic things as religion, peace, or socialism. Then he enters into a period of doubt when he finds something wrong with every ideal that ever found a sanctuary in his heart. Finally he grows completely bewildered, believing in nothing. Life has sullied him.

It has been said that only youth goes to the wars or enters the nunneries. It has also been said that the fate of America is in the hands of her youth. If increased knowledge only results in the destruction of ideals and unselfish ambition, America can hope for little. Life is strong. It takes courage to really live.

"A little knowledge is a dangerous thing."

—The Daily Pennsylvanian.

PROJECTION

We can, in imagination, project ourselves, it is said—into space, into time, into another personality. We can leave our physical bodies, and fly above the clouds, across the seas, around the world. Or we can project ourselves into the past, as did the famous hero of "Berkeley Square", or into the future, as H. G. Wells and so many others have done. We can project our own personality into that of someone else, as the psychologists say, and in them see what are really our own faults and virtues.

It is the projection into time, into the future, that concerns the student now. With a rueful glance at the work piled up since last October, we wish we were back there now, so that we could do a little each day. We wish that then we could have seen ourselves now, only two months away from the term's end.

But it is not yet too late. We can still, if we so will, project ourselves to the end of April, and act while there is still time as we'll wish we had when that moment arrives. In other words, it is not enough to

realize vaguely that we are nearing examinations—to lapse back comfortably knowing they are, after all, still two whole months away. If we will but take the trouble to project ourselves temporarily, we will provide ourselves with incentive to buckle down to work.

—The McGill Daily

OPEN FORUM

In opening its columns to letters addressed to the Editor, THE TECH does not guarantee publication nor does it necessarily endorse the opinions expressed. Only signed communications will be considered. However, if the writer so desires, only the initials will appear on publication.

To the Editor of The Tech:

I want to take this occasion to thank you and The Tech for the complimentary subscription to the paper which you have so kindly sent to my office during the year. In my work as the intercollegiate secretary of the college Christian organizations, it is a great help to me to have numbers of these college papers coming across my desk during the week. It gives me immediate touch with the various campuses which is immensely useful to me in my work. Let me say again how much I appreciate your courtesy and generosity in granting me the subscription.

I have just finished reading your editorial on the student strike entitled, "High Aims; Wrong Methods." I want to congratulate you on the attitude you take. As an observer at the strike I share your analysis of the situation and feel that you have expressed it clearly and effectively.

I feel that one way of bringing this question of war before the students is through such mass student enterprises as the strike against war is attempting to become. I understand that if the student committee had played its cards properly, the demonstration could have been sponsored by the Institution and carried off in a dignified and effective form. I should like to make the definite suggestion to you that The Tech along with other regular student organizations in the Institute such as the Institute Committee, the T. C. A., etc., show active interest in the strike next year and take the leadership in organizing it on the lines that would most effectively create an intelligent peace sentiment among students at Technology.

(Signed) W. J. KITCHEN,
 Secretary of the New England Student Committee

Reviews and Previews

METROPOLITAN

Rudy Vallee and his Connecticut Yankees in person present a revue of variety entertainment created by himself and of the same calibre as his weekly radio broadcasts.

"Stolen Harmony" with George Raft and Ben Bernie has the rather novel theme of the bold kidnapping of an entire orchestra, (the lads), combining melody and comedy in the story of an ex-convict who stages a comeback with the aid of his friends and the girl he loves.

LOEW'S STATE

George Arliss' "Cardinal Richelieu" is his first American production since "The House of Rothschild" and again features that capable person in the dramatic interpretation of the controversy between Church and State for power during the early nineteenth century.

KEITH MEMORIAL

"Star of Midnight" is a murder mystery thriller with William Powell, a sophisticated, debonair society member, and brilliant attorney, as the "Holmes" and Ginger Rogers as his "Watson". It is based on the novel of the same name by Arthur Somers Roche.

RKO BOSTON

"Hello Paris", the Folies Bergeres revue from Paris is being held over for a second week. This reviewer was much impressed with the superior quality of the entertainment. Being of French origin, it is naturally devoid of verbiage, which fact detracts not one bit from its entertaining value.

LOEW'S ORPHEUM

Blanche Calloway, sister of the famous Cab, and her own band of Harlem entertainers have prepared a "red hot" program of rhythm for this week's bill.

The accompanying film "One New York Night", a hotel murder mystery has Franchot Tone and Una Merkel in the leading roles.

PARAMOUNT-FENWAY

"Four Hours to Kill" has Richard

Barthelmess as an escaped murderer on his way to the noose, but who makes a get-away in a New York theatre where he and the detective are spending the time between trains.

"Mary Jane's Pa" is the story of a tramp printer and his conscientious wife. Guy Kibee and Eileen MacMahon take the respective parts.

MODERN

Evelyn Brent and Al Shean in "Symphony of Living" portray the life of Adolph Greig, concert violinist, who is disabled when an accident crushes his hand.

"Scandals of 1935" is the companion film.

UPTOWN

Bing Crosby, Joan Bennett and W. C. Fields in "Mississippi" and Lyle Talbot and Gertrude Michael in "It Happened in New York" are the features.

Tau Beta Pi

(Continued from Page 1)

lor, and T. Norman Willcox, all of the class of 1936.

Plans were discussed for establishing a Boston Alumni Chapter of Tau Beta Pi and Professor Walter V. Voss was chosen chairman of the committee to work toward this end. In his speech on "Scholarship and Its Relation to Success after Graduation", Dr. Vannevar Bush, Dean of engineering and Vice-President of the Institute, concluded that no definite answer could be made because "scholarship" and "success" are indefinite terms.

The men initiated last night include the following: from Technology: Edward F. Everett, Jr., William W. Garth, David J. Gildea, Jr., John P. Hamilton, Anton E. Hittl, Allen W. Horton, Jr., and Edwin A. Kass, all of the Class of 1936; from Tufts: Paul H. Doleman, '24, and Louis Berger, Mario V. Cioffi, Phillips C. Davis, Arnold A. Roetzer, and Werner H. Schmidt, all of the class of 1936; and from Harvard: Alden B. Greninger, Edward P. Hollis, and Charles S. L. Robinson, all of the Class of 1935.

fore. Captain Al Mowatt has been moved down from number two to stroke the boat for the race, while Bill Bixby has been moved up from the J. V.'s to fill in Mowatt's place at 2.

On the same program as the Compton cup race, will be races between the Harvard, Princeton and Technology Junior Varsity and 150 lb. boats. Last year Technology's crack 150 lb. boat spread ahead of the other two boats to win the race. Tech's J. V.'s came in last in their race, led by Princeton and Harvard in that order. The predictions for this year's meet are not as auspicious as these of this time last year.

The first freshmen heavies will also compete against the Tigers and Crimston yearlings, while the 2nd heavies go to Newburyport to meet the St. George's Prep School crew.

Harvard Lacrosse Team Beats Tech

Beavers Lose 11 to 0 On Muddy Harvard Field As Both Teams Open Seasons

The M. I. T. Lacrosse team skidded to an 11 to 0 defeat in the ankle-deep mud of Harvard's Lacrosse field Wednesday afternoon. Rain, during the first half made a mess of the entire game. The simple explanation of Technology's failure to score is that at no time did they possess the ball long enough to go into a scoring position. During the entire 60 minutes of play the Tech men held the ball scarcely 10 minutes. In as much as Harvard played an almost entirely offensive game,

Attack: Capt. Red Forster, Dick Colby.

Midfield: Dick Halloran, Dave Mathias, Dick DeWolfe.

Defense: Dick Morton, George Crummey, Bulkley, Stan Zemansky, John Fellouris, Elmer Wirtz.

Jim Carr did some fine defensive work as goalie throughout the entire game.

Track Men Leave For Harvard To Compete In Greater Bostons

The Trials Will Take Place At Harvard Stadium Today; Finals Tomorrow

Oscar Hedlund is sending a strong delegation of track men to the Greater Boston Intercollegiate today when the trials will be held in Harvard Stadium. This is the team's first meet of the spring season and Oscar is starting his veterans off against the crack field and track men of Harvard, Boston College, Boston University, Northeastern, and possibly Tufts.

Those who will most probably start include: 100 yd. and 200 yd. dashes—Henry Runkel, Walter Nygaard; ¼ mile—Dave McLellan, Gordon Donnan, Tom Blair; 800 m.—Gene Cooper, Mort Jenkins, Doug Chalmers; 1500 m.—Mort Jenkins; 3000 m.—Henry Guerke, Doug Chalmers, Bill Bates, John Talbert; Broad Jump—Stan Johnson; Hurdle—Albert Faltz, Will Crout; Discus—Tom Kinraide

Moreland Speech

the business world, gave an informal speech on Professor Jackson's work and life. Dr. Vannevar Bush, Professor William H. Trimble, and Professor Jackson also spoke. About 50 student members and guests attended the meeting.

Worcester Tech Wins Match With Institute Golfers Wed. by 5-1

Herb Goodwin Scores Lone Point As Team Loses First Match

Carrying Worcester Tech to the last hole before losing, the M. I. T. golf team dropped its first match of the year last Wednesday at the Oakley Golf Club.

Although the score was 5-1 in favor of the up-state team, 2 of the five points were gained on the eighteenth hole when Sadich of Worcester shot a 4 to beat Ozol.

Captain Flood, playing No. 1, had an off day as he dropped his point for the eighteen hole match. Ed Everett, No. 2 also lost his point, and as he and Flood were in the same foursome, they naturally lost the point for low ball.

In the other foursome, however, things were much closer as Herb Goodwin circled the course in a sweet 72, one over par. This won Tech's lone point, but as mentioned above, Ozol in the same quartet was just nosed out to miss tying the match.

Tech Tennis Men Open Season Sat.

Varsity Meet Worcester Tech; Frosh Take On Brown; Both Away

Technology's varsity and freshman tennis teams open their respective seasons tomorrow, when the varsity racquetmen take on Worcester Tech at Worcester, while the yearlings meet Brown at Providence, Rhode Island. The varsity lineups find two new men listed for tomorrow's matches, in that Jack Silverman and Clifford Lytle play their first Technology matches both men having transferred to the Institute last year, thus being ineligible until this season.

The meet with Worcester Tech is the first meet of the year for both teams, and not much can be said about the teams.

The class of 1938 elected the following officers: president: Donald Weir, alternate: Harry E. Draper; vice-president: Frederick J. Kolb, alternate: Albert O. Wilson; secretary-treasurer: Emmett Ryder, alternate: John Henry Craig; Institute Committee: Richard Muther and Richard K. West, alternates: Frederick E. Strassner and Louis Bruneau, Jr.

After the announcement of the election results, George R. Robinson, '36, president of the Commuters' Club, requested the numerical tabulation, but was informed by Stockmayer that the custom is not to announce it, but that it was available if the occasion required.

Boulware delivered the report by proxy for Samuel S. Fox, '35, chairman of the Elections Committee who is out of town.

This year's honors were fairly evenly distributed among dormitory, fraternity and commuting men. No evidences of disorder or electioneering were found at the polls.

Final Menorah Dance Of Season to be Held In 5:15 Room Tonight

Binary Meetings Will Feature Next Year's Menorah Club Program

For their final event of the season, the Menorah Society is presenting a "Spring Cleaning Informal", tonight, in the 5:15 Club Room. Refreshments will be served, and the dancing will last from 9:00 to 1:00 o'clock. Admission for members will be 50c a couple, and for guests, \$1.00 a couple.

The Menorah Society, according to Leonard A. Seder, '37, president, has had a very active and successful season this year. An experiment to further the social relationships of the members with Menorah members of other colleges by means of binary meetings was the highlight of the season, Seder stated. Two of these meetings were held during the year, with Simmons and Radcliffe respectively, and the Society hopes to continue this form of social contact next season.

Technique Rush

(Continued from Page 1)

Technology, and in order to do this ten Techniques are given away free to those who are agile enough to earn them. A greased hut is placed in the center of the field, and through an aperture in the top at irregular intervals are thrust paddles. Those who secure these paddles and keep them until they can be deposited with the men in charge are entitled to a free copy of Technique. Nine paddles are thrust from the hut. The tenth is hidden somewhere in the vicinity, and the one who finds that not only is entitled to a copy of the year book, but gets \$10 in addition. Last year it was hidden under the skirt of a "girl" who later proved to be Lincoln R. Clark, Jr., '37, a member of the Tech Show chorus.

Lounger

(Continued from Page 1)

The first thing we learned is that an Institute Committee Meeting is important. It is also a very Solemn Occasion. People who speak above whispers, or at least very low monotonous would be quite out of place. Even proxies, of whom there are a great number, are thoroughly awed. Or are they bored?

Reports

Minutes of previous meetings are read at top speed only two or three variations of tone being standard. We were inspired to note the average behavior of the average member, and hereby set forth rules to be followed to look Dignified and Intelligent.

If you are a smoking man, smoke intensely and with great concentration. If you own a pipe, rest both elbows on the edge of the table, clutch the pipe bowl as if it were a lost opportunity, and fix the speaker with a piercing glance. Perhaps, you prefer cigarettes. In this case, exhale copiously through the nose taking as a pattern a horses snort. At the same time knit the brows and assume a fierce expression. In any case rest the chin occasionally upon the palm of the hand, and with a slight squint follow every movement of the speaker. If he hesitates, frown, and lift one eyebrow. It is best to keep either both eyebrows up or down, or one each. The idea behind the whole scheme is to let everyone know that you're as well informed on any subject as anyone else present. But be careful, or you'll look like a darn fool.

It is unfortunate that Institute Committee Meetings are held before supper. That may account for the celerity with which motions are carried, and proposals accepted. After all who wants to argue on an empty stomach. So it is just within the bounds of possibility that the INCOM meetings are so solemn and quiet thanks to empty stomachs, not important business.

Baseball

(Continued from Page 1)

wise Bouchard will move over from third and Lynn will be at the third sack.

Two hard hitting members of the winning team in the 1934 interclass competition, Jack Orchard and Brooks Morgan, will flank Lefty Comley in the outfield.

Lowell has won three straight games this spring, their latest victim being Northeastern yesterday.

The Collegians will play again on Monday when they take on the Harvard J. V. nine, with Red Forster expected to pitch for the Tech outfit.

Scabbard and Blade

(Continued from Page 1)

the field where she will be presented to the officers at 4:15 in the afternoon. Col. Elmer J. Roth and Lawrence W. Sharpe, captain of Scabbard and Blade will escort Miss Compton through the companies, following which the students will pass in review.

This review precedes the annual spring military ball, to be held in Walker Memorial on May 3 at which Miss Compton will lead the grand march under crossed sabres. Pledging of new members to Scabbard and Blade will be marked by colorful ceremonies at midnight. About 200 members and guests are expected to attend the dance.

Series of Lectures Is Given by Warner

Mr. E. P. Warner, Non-Resident Professor of Aeronautical Engineering, will deliver a series of lectures on April 30 and May 1 and 2 at the Institute. The lectures will all be given at 2:00 P. M. in Room 5-330, and, while planned for seniors in Course XVI, will be open to all others who may be interested.

By golly

I'm always running out of Chesterfields

Mild Ripe Tobacco...
Aged 2 years or more...

—the farmer who grows the tobacco...
—the warehouseman who sells it at auction to the highest bidder...
—every man who knows about leaf tobacco—will tell you that it takes mild, ripe tobacco to make a good cigarette; and this is the kind we buy for CHESTERFIELD Cigarettes.

All of the tobacco used in CHESTERFIELD Cigarettes is aged for two years or more.
